Br J Vener Dis 1983;59:412-9

Index to Volume 59, 1983

Authors and subjects are indexed together. There is a separate index of articles abstracted and another of authors of articles abstracted

Abortion, therapeutic, pelvic inflammatory disease after, associated with *C trachomatis*, **189**

Acrosoxacin in treatment of uncomplicated gonorrhoea, **242**

Actinomyces in the female genital tract, **317**

Acyclovir, topical, in the treatment of initial herpes, **116**

ADEYEMI-DORO F A B. *See* ASHIRU J O *et al*, **325**

Africa, plasmid profile, serogrouping and auxotyping of *N gonorrhoeae* isolates from Africa, **41**

ALBRITTON W L. *See* ODUGBEMI T O *et al*, **41, 285**

ALDERETE J F. *See* MORRISON-PLUMMER *et al*, **75**

Amenorrhoea, secondary, associated with chlamydial infection, **105**

Amine content of vaginal fluid from patients with *T vaginalis* and gardnerella associated non-specific vaginitis, **302**

Anaerobes in genitourinary infections in men, **255**

Anaerobes, isolation and identification from male and female urogenital tracts, **182**

ARAMESH B. *See* DAROUGAR S *et al*, **53**

ARIYARIT C. *See* PANIKABUTRA K *et al*, **298**

ARKO R J, WONG K-H, SMITH S J, FINLEY-PRICE K G: Antigonococcal effects of vaginal tampons, **94**

ARNOLD K. *See* NG W S *et al*, **232**

Arsenic, chemotherapy and cure of syphilis by: Paul Ehrlich, **404**

ASHIRU J O, OGUNBANJO B O, ROTOWA N A, ADEYEMI-DORO F A B, OSOBA A O: Intraoral condylomata acuminata: a case report, **325**

Asia, south east, penicillinase-producing *N gonorrhoeae* in, **232**

ATIA W A, EMMERSON A M, HOLMES D: Sultamicillin in the treatment of gonorrhoea caused by penicillin sensitive and penicillinase producing strains of *Neisseria gonorrhoeae*, **293**

ATTILI V R, HIRA S K, DUBE M K: Schistosomal genital granulomas: a report of 10 cases, **269**

Australia, survey of STD centres in, **330**

BAIN S S R. *See* YOUNG H, **228**

Balanitis, subpreputial carriage of aerobic micro-organisms, **131**

BALLARD R C. *See* DUNCAN M O *et al*, **265**

BALSDON M J. *See* SANDERSON B E *et al*, **302**

BARLOW D. *See* THIN R N *et al*, **364**

BARR J. *See* MAW R D *et al*, **407**

BASEMAN J B. *See* MORRISON-PLUMMER *et al*, **75**

BELARDI M. *See* FANTASIA M *et al*, **342**

BELLO C S S, ELEGBA O Y, DADA J D: Sexually transmitted diseases in northern Nigeria: five years' experience in a university teaching hospital clinic, **202**

BELSEY E M: Diagnosis of gonorrhoea in women: a national survey, **59**

BERG S W. *See* ZAJDOWICZ T R *et al*, **176**

BHARGAVA R K and THIN R N T: Subpreputial carriage of aerobic microorganisms and balanitis, **131**

BIDDLE J. *See* ODUGBEMI T O *et al*, **41, 285**

BILGERI Y R. *See* DUNCAN M O *et al*, **265**

Biological false reactions (BFP) and the continuing value of the VDRL test, **340**

BITTINER J B. *See* WALSH R J *et al*, **242**

BLACKWELL C C. *See* KINANE D F *et al*, **44**

Blood group, secretor status and susceptibility to infection by *N gonorrhoeae*, **44**

BOOK REVIEW

BANCROFT J: Human sexuality and its problems (1983), **344**

CENTERS FOR DISEASE CONTROL: Quality assurance guidelines for STD clinics (1982), **409**

Candida albicans and *C tropicalis*, difference in virulence of clinical isolates in mice, **142***
C albicans, combined activity of ketoconazole and sulfamethoxazole against, **282***
C albicans strains as means of studying sources of infection, **282***
C albicans vaginitis, diagnosis and treatment, **282***
C tropicalis and *C albicans*, difference in virulence of clinical isolates in mice, **142***
Candidosis, balanitis, clinical presentation and diagnosis and treatment, **282***
Candidosis, clotrimazole versus econazole in treatment of, **281***
Candidosis: efficacy of various therapeutic concepts in, **281***
Candidosis, epidemiology, pathology, and clinical features of, 1981 status, **282***
Candidosis, investigations into pathoaetiology and diagnosis of vaginal, **282***
Candidosis, one dose therapy in, **282***
Candidosis: patient compliance and short term treatment regimen, **281***
Candidosis, recurrent vaginal, systemic ketoconazole treatment, **73***
Candidosis, recurrent vulvovaginal, **282***
Candidosis: results of 500 mg Canesten single dose pessaries, **282***
Candidosis, vaginal, treated with natamycin, **214***
Cefmenoxime *v* penicillin in gonorrhoea, **345***
Cefodizime against *N gonorrhoeae*, **345***
Cefonicid, comparison with single dose penicillin in gonococcal urethritis, **141***
Cefotaxime for treatment of uncomplicated gonorrhoea, **213***
Cefotaxime in gonococcal urethritis in Nigeria, **141***
Ceftazidime against *N gonorrhoeae*, **345***
Cefuroxime compared in gonorrhoea in women, **72***
Cervical neoplasia and *C trachomatis*, **214***
Chancroid, treatment of β-lactamase positive *H ducreyi* with amoxycillin and clavulanic acid, **143**
Chlamydial aetiology of pelvic inflammatory disease, **72***
Clamydial cervicitis, an ultrastructural study, **73**
Chlamydial cervicitis, colposcopic and histological findings in, **72***
Chlamydial cervicitis detection by cervical cytology, **346**
Chlamydial infection and pelvic pain, laparoscopy in, **346***
Chlamydial genital infection in female guinea pigs: effect of oestradiol on, **214***
Chlamydial infection, ultrastructural studies in guinea pig urogenital tract, **281***
Chlamydial genital infections, epidemiology, **72***
Chlamydial infections, gynaecological, **72***
Chlamydial major outer membrane proteins, structural analysis of, **281***
Chlamydial salpingitis, endometrial infection in, **142***
Chlamydial serum IgG antibodies measured by ELISA in acute salpingitis, **72***
Chlamydial venereal disease, diagnosis and treatment of, **73***
Chlamydia spp, monoclonal antibody characterisation, **346***
Chlamydia trachomatis and cervical neoplasia, **214***
C trachomatis and clinical general infections: review, **72***
C trachomatis, asymptomatic male infections, **281***
C trachomatis, β-lactam antibiotics and cephalosporins against, **346***
C trachomatis, comparison of methods of cultivation and isolation, **214***
C trachomatis, control mechanisms governing infectivity of, **73***
C trachomatis culture in STD clinics, resources needed, **142***
C trachomatis, detection of type-specific antibody to LGV serotypes of, with microneutralisation test, **214***

C trachomatis, efficacy of antimicrobials against, **72***
C trachomatis, endometritis, perihepatitis, and meningoencephalitis, **73***
C trachomatis, growth in medium containing calf serum, **281***
C trachomatis IgG antibodies, rapid immunoperoxidase assay for, **346***
C trachomatis inclusions in McCoy cell cultures with fluorescein conjugated monoclonal antibodies, **346***
C trachomatis infection of mouse trophoblasts, **214***
C trachomatis, infections in women with urogenital symptoms, **281***
C trachomatis infections, microbiological diagnosis of, **72***
C trachomatis, infectivity in tissue culture with newborn calf serum, **73***
C trachomatis isolation, simplified methods using multiwell plate, **281***
C trachomatis, localisation of distinct surface antigens on, **281***
C trachomatis, microplate culture with PAS staining for, **346***
C trachomatis, neutralisation of infectivity with antibodies to the major outer membrane protein, **214***
C trachomatis, positive male and female partners, comparison of erythromycin and tetracycline treatments, **142***
C trachomatis proteins, analysis of human serological response to, **281***
C trachomatis, repeatedly infected volunteer, long term clinical, microbiological and immunological observations in, **214***
C trachomatis—serological diagnosis, **72***
C trachomatis serotype LGV2, in vitro activity on HeLa cells, **281***
C trachomatis serum antibodies, increased frequency in infertility due to distal tube disease, **142***
C trachomatis strain HAR13, ultrastructural effect of penicillin and cycloheximide on, **281***
C trachomatis, toxic effect of human polymorphonuclear leucocytes on, **142**
Clavulanic acid and amoxycillin in β-lactamase positive *H ducreyi* chancroid, **143**
Clotrimazole, action kinetics of, **282***
Clotrimazole, antibacterial activity of different formulations of, **282***
Clotrimazole, pharmacokinetic fundamentals of vaginal treatment with, **282***
Clotrimazole, single dose 500 mg pessaries, results in candidosis, **282***
Clotrimazole *v* econazole in treatment of candidosis, **281***
Clotrimazole, vaginal levels after different doses and days, **282***
Colitis, fulminating, Reiter's syndrome complicated by, **214**

Denmark, early infectious syphilis in, **283**
2-Deoxy-D-glucose, failure in treatment of herpes simplex virus, **215***
Disseminated gonococcal infections, **280***
Drug usage, recreational, among STD clinic patients, **215**

Econazole *v* clotrimazole in treatment of candidosis, **281***
Erythromycin and tetracycline compared in *C trachomatis* positive male and female partners, **142***
Escherichia coli, expression of *T pallidum* antigens in, **69***

Gardnerella vaginalis, anaerobes and vaginal discharge, **74***
G vaginalis, characterisation by gas chromatography, **74***
G vaginalis, identification of, **347**
G vaginalis, infection, comparison of culture and microscopy for diagnosis, **74**
G vaginalis, minimal criteria for identification of, **348**
G vaginalis, rapid microbiological method for diagnosis, **143***
Gonococcal antibodies produced by urogenital staphylococci, **71***
Gonococcal arthritis, 23 cases of, **70***
Gonococcal bacteraemia, murine, natural immunity to, roles of complement, leucocytes, and sex, **346***
Gonococcal colony opacity phenotypes, rates of in vitro changes of, **141***
Gonococcal infection, disseminated, **70***
Gonococcal infection, disseminated, pharynx only culture-positive site, **70**
Gonococcal infection, disseminated, study of serum and synovial fluid immune complex levels, **71***
Gonococcal infection, dissemination of, associated with delayed stimulation of complement-dependent neutrophil chemotaxis in vitro, **213***
Gonococcal infection, laboratory diagnosis by genetic transformation, **71***
Gonococcal ophthalmia in the 1980's, incidence, aetiology, and treatment, **283**
Gonococcal peptidoglycan, strain-related differences in lysozyme sensitivity and extent of O-acetylation of, **141***
Gonococcal serology, comparison of ELISA, IHA, and GCFT, **280***
Gonococcal strains from homosexuals have outer membranes with reduced permeability to hydrophobic molecules, **141***
Gonococcal urethritis, comparison of single dose cefonicid and penicillin, **141***
Gonococcal urethritis in Nigeria, cefotaxime in, **141***
Gonococcal urethritis, penicillin and spectinomycin in **141***
Gonococci and meningococci, immune and non-immune precipitation of human sera with, **141***
Gonococci, improved medium for transport of specimens, **71***
Gonococci in guinea pig subcutaneous chambers, effect of anti-pilus antibodies on survival of, **213***
Gonococcus, resistance to infection with, **71***
Gonorrhoea, acute, single intramuscular injection of mezlocillin, **213*** (bis)
Gonorrhoea and vaginal spermicides, **213**
Gonorrhoea, anogenital, and pharyngeal meningococci, **346***
Gonorrhoea, detection by laparoscopic diagnosis of acute adnexitis, **140***
Gonorrhoea, diagnosis using genetic transformation test on mailed clinical specimens, **213***
Gonorrhoea during intrapartum period, **212***
Gonorrhoea, female contacts of, rapid evaluation by limulus lysate test, **141***

Gonorrhoea in women, comparison of spectinomycin, cefuroxime, thiamphenicol and penicillin G treatments, **72***
Gonorrhoea in women, value of Gram stained cervical smear, **141***
Gonorrhoea, pharyngeal, screening for in urban teenagers, **213**
Gonorrhoea, repeated, detection by modified follow up method, **212***
Gonorrhoea, repeated, in Sheffield, epidemiology of, **283***
Gonorrhoea, rosoxacin in uncomplicated, **141***
Gonorrhoea, single stain for smears and non-removal of cervical secretions before obtaining test specimens, **141***
Gonorrhoea treatment, cefmenoxime *v* penicillin, **345***
Gonorrhoea, uncomplicated, comparison of piperacillin and penicillin, **72***
Gonorrhoea, uncomplicated, treatment with cefotaxime, **213***
Great Britain, evidence of endemic transmission of penicillinase-producing *N gonorrhoeae* in, **144**

Haemophilus ducreyi, β-lactamase-positive, treatment of chancroid with amoxycillin and clavulanic acid, **143**
H ducreyi, enzymatic profile of, **283***
H ducreyi, identification in a clinical laboratory, **74**
H ducreyi infections, time for reappraisal, **282**
H ducreyi in genital ulcers in white men in Johannesburg, **347***
H ducreyi, isolation and cultivation of, **74***
H ducreyi, isolation and rapid identification of, **215***
H ducreyi, simulated positive auto-inoculation by herpes simplex infection, **215***
Hepatitis B in homosexuals, prevalence and factors related to transmission, **144**
Herpes, genital, arabinosyladenine monophosphate, double blind placebo controlled study, **282***
Herpes, genital, detection by tissue culture, fluorescent antibody technique with biorin-avidin, **282***
Herpes, genital, diagnosis and treatment of, **143***
Herpes, genital, double-blind trial of topical acyclovir, **143***
Herpes, genital, experimental, acyclovir treatment of, **143***
Herpes, genital, ineffectiveness of topical idoxyuridine in dimethyl sulphoxide, **143***
Herpes, genital, in Israel 1973-80, **215***
Herpes, genital, initial and recurrent, oral acyclovir in, **143***
Herpes, genital, intravenous acyclovir in, **143***
Herpes, genital, in women, clinical and urological studies, **214***
Herpes, genital, oral acyclovir in treatment of, **142**
Herpes, genital, recurrent, oral acylovir controlled trial, **143***
Herpes, genital, recurrent, patient-initiated therapy for, **143***
Herpes, genital, topical acyclovir in treatment of, **142***
Herpes, genital, virus specific antibodies in sera from patients with, **143***
Herpes gestationis and polymorphic eruptions of pregnancy, immunoelectron microscopy study of relationship, **347***
Herpes simplex, chronic perianal in homosexuals with acquired immunodeficiency syndrome in, **73**
Herpes simplex infection simulating a positive autoinoculation for *H ducreyi*, **215***
Herpes simplex virus, comparison of ELISA and quantal microneutralisation test for serotyping, **214***
Herpes simplex virus, effects of genetic resistance in vaginally infected mice, **282***
Herpes simplex virus, failure of 2-deoxy-D-glucose in treatment of, **215***
Herpes simplex virus, genital infection, inapparent in college women, **282***
Herpes simplex virus, genital, treatment of first episodes with oral acyclovir, **347**
Herpes simplex virus, latency in uterosacral ligaments, **143***
Herpes simplex virus proctitis in homosexual men, **347**
Herpes simplex virus type 1 in CSF, recovery of 2 strains in herpetic proctitis and meningitis, **282**
Herpes simplex virus type 2, effect of phosphonoformate on symptomatic genital herpes in guinea pigs, **282***
Herpes simplex virus type 2 infection with unusual generalised manifestations, **347***
Herpes simplex virus type 2, restriction endonuclease analysis of DNA from genital isolates, **282***
Herpes simplex virus type 2, unusual serological response of two patients to an early antigen of, **143***
Herpes simplex virus types 1 and 2, comparison of typing with type specific rabbit antisera and restriction endonuclease analysis of viral DNA, **282***
Herpes simplex virus types 1 and 2, primary and recurrent concomitant genital infection, **347***
Herpes simplex virus typing by ELISA with monoclonal antibodies, **347***
Homosexuals, acquired immunodeficiency syndrome in, chronic perianal herpes simplex, **73**
Homosexuals, AIDS in four, **348***
Homosexuals, characteristics of pathogenic *Neisseria* species isolated from, **280***
Homosexuals, gonococcal strains from, have outer membranes with reduced permeability to hydrophobic molecules, **141***
Homosexuals, hepatitis B in, prevalence and factors related to transmission, **144**
Homosexuals, herpes simplex virus proctitis in, **347**

Idoxyuridine, topical, in dimethyl sulphoxide, ineffectiveness in genital herpes, **143***
Infertility due to distal tube disease, increased frequency of *C trachomatis* serum antibodies, **142***
Israel, genital herpes in, 1973-80, **215***

Jarisch-Herxheimer reaction, role of immune complexes in, and early syphilis, **140***
Jarish-Herxheimer reaction, studies on pathogenesis, **279**
Johannesburg, *H ducreyi* in genital ulcers in white men in, **347***

Ketoconazole and sulfamethoxazole against *C albicans*, **282***
Ketoconazole, systemic, for recurrent vaginal candidosis, **73***

Leucoderma in secondary syphilis, **140***
Leucoderma of penis, reversal in man with secondary syphilis, **140***
Liver involvement with early syphilis, **69**
Lymphogranuloma venereum and acute ulcerative proctitis, **74***

Meningococci and gonococci, immune and non-immune precipitation of human sera with, **141***
Metronidazole, factors affecting activity against *T vaginalis*, **281***
Metronidazole, sensitivity of *T vaginalis* to, in medium with various concentrations of iron and ascorbate, **281***
Mezlocillin in treatment of gonorrhoea, **213*** (bis)
Mycobacterium avium intracellulare, disseminated, in two men with AIDS, **348**
Mycoplasma genitalium, a new species from the genital tract, **346***
Mycoplasmas, genital, in healthy volunteers and patients with non-gonococcal urethritis, **214**

Natamycin, treatment for vaginal candidosis, **214***
Neisseria catarrhalis, isolation of, from men with urethritis, **281***
N gonorrhoeae, activity of Sch 29, 482, a new oral penem, against, **345***
N gonorrhoeae, anaerobic survival of clinical isolates and laboratory strains, use in transfer and storage, **72***
N gonorrhoeae and urinary tract pathogens, activity of norfloxacin against, **280***
N gonorrhoeae, antibiotic sensitivites in Far East; comparison of plasmid species from six countries, **141***
N gonorrhoeae antibodies, radioimmunoassay for detection of, **71***
N gonorrhoeae, antigenicity of outer membrane proteins III detected by immunoprecipitation and Western Blot transfer with monoclonal antibody, **213***
N gonorrhoeae, antimicrobial susceptibility of, **71***
N gonorrhoeae, characterisation of immune response in subcutaneous chambers of guinea pigs immunised by ribosomal preparation from, **141***
N gonorrhoeae, comparative activity of cefodizime, ceftazidime, and aztreonam against, **345***
N gonorrhoeae, comparison of commercially available New York City medium and Martin-Lewis medium for recovery of, **213***
N gonorrhoeae, correlation of penicillin sensitivity and complement-dependent bactericidal activity to human serum, **72***
N gonorrhoeae, culture medium for confirmation of penicillin-resistance and penicillinase-producing, **72***
N gonorrhoeae, detection with solid phase enzyme immunoassay, **280***
N gonorrhoeae DNA, correlation of methyl adenine with AHU auxotype, **71***
N gonorrhoeae, effect of anti-pilus antisera on cultured epithelial cells, **71***
N gonorrhoeae, factors affecting smear and culture tests for, **141***
N gonorrhoeae, immunological identification, comparison of commercial reagents, **71***
N gonorrhoeae, induction of leukochemotaxis, primary skin inflammation and local Schwartzman reaction, **71***
N gonorrhoeae infection and ABO blood groups and secretor status, **345***
N gonorrhoeae in guinea pig chamber model, role of pili and outer membrane vesicles in immunogenecity of, **345***
N gonorrhoeae, interaction with human neutrophils, effects of serum and gonococcal opacity, **71***
N gonorrhoeae, ^{125}I-peptide mapping of protein III from, **141***
N gonorrhoeae, outer membrane proteins of, associated with survival in human polymorph phagocytes, **346***
N gonorrhoeae P9, antigenic variation of outer membrane protein II in colonial variants, **71***
N gonorrhoeae, penicillinase-producing, analysis of recent epidemic of, **144***
N gonorrhoeae, penicillinase-producing, causing ophthalmia neonatorum, **70**
N gonorrhoeae, penicillinase-producing, emergence of resistance after spectinomycin treatment, **71***
N gonorrhoeae, penicillinase-producing, epidemiology by auxotyping and serogrouping, **71***
N gonorrhoeae, penicillinase-producing in Great Britain 1977-81, evidence of endemic transmission, **144**
N gonorrhoeae, penicillinase producing in Netherlands 1981, **280***
N gonorrhoeae, penicillin resistant, activity of 8 new β-lactam antibiotics against, **345***
N gonorrhoeae, peptidoglycan biosynthesis in, strains sensitive and resistant to β-lactam antibiotics, **280***
N gonorrhoeae peptidoglycan, synthesis and modification of, **345***
N gonorrhoeae phagocyte recognition of **280***
N gonorrhoeae phagocytosis and killing by *T vaginalis*, **345***
N gonorrhoeae, phenotypic changes in colonial morphology, **213***
N gonorrhoeae pili antigens, demonstration of antigenic heterogenicity using human sera, **71***
N gonorrhoeae pili-safety and immunogenicity in humans and antibody functions in vitro, **71***
N gonorrhoeae, pilus expression involves chromosomal rearrangment, **141***
N gonorrhoeae polysaccharide cell wall antigen, detection in rabbit model by counter immunoelectrophoresis, **141***
N gonorrhoeae, primary cutaneous infections, **70***
N gonorrhoeae, purification and partial characterisation of major outer membrane protein of, **71***
N gonorrhoeae, purification of pili and outer membrane vesicles of, by wheat germ agglutinin affinity chromography, **141***
N gonorrhoeae, pyocin-resistant mutants, alterations in sensitivity to normal human serum and polymixin B, **71***
N gonorrhoeae, recovery from clinical specimens, effects of different temperatures, transport times, and media, **141***
N gonorrhoeae, repeated infections in Alaskan natives, **143***
N gonorrhoeae sensitivity to bactericidal activity of human serum, reliability of plaque assay, **72***
N gonorrhoeae, serological classification with monoclonal antibodies, **71**

N gonorrhoeae serology: coagglutination serogroups WI and WII/III correspond to different outer membrane protein I molecules, **213***
N gonorrhoeae, spread of penicillinase producing and transfer plasmid from, to *N meningitidis*, **346***
N gonorrhoeae, surface peptide mapping of protein I and protein III of 4 strains of, **141***
N gonorrhoeae, susceptibility to N-formimidoyl-thienamycin, **213***
N gonorrhoeae, transformation of, sequence specific DNA uptake in, **280***
N gonorrhoeae, variant pili of autoagglutinating, **71***
N meningitidis, pharyngeal and anogenital gonorrhoea, **346***
N meningitidis, spread of penicillinase producing and transfer plasmids from gonococcus to, **346***
N meningitidis, susceptibility to N-formimidoyl-thienamycin, **213***
Neisseria spp, characteristics of pathogenic, isolated from homosexual men, **280***
Netherlands, penicillinase producing gonococci in, in 1981, **280***
Neurosyphilis revisited, **345***
New Zealand, Northlands, sexually transmitted disease in general practice, in, **74**
Nigeria, cefotaxime in gonococcal urethritis in, **141***
Non-gonococcal urethritis, effect of rosaramicin and tetracycline in chlamydia positive and chlamydia negative, **214***
Non-gonococcal urethritis, genital mycoplasmas in, and in healthy volunteers, **214**
Non-gonococcal urethritis in males, **73***
Non-gonococcal urethritis, measurement of antibody to *U urealyticum* in, **281***
Non-gonococcal urethritis, persistent and recurrent, without evidence of current infection, **213***
Non-gonococcal urethritis, studies on aetiology of, **141***
Non-specific vaginitis, diagnostic criteria and microbial and epidemiological associations, **283***
Non-specific vaginitis, motile anaerobic curved rods in, **215***
Norfloxacin against *N gonorrhoeae* and urinary tract pathogens, **280***

Syphilis, early experimental, serum regulation of in vitro lymphocyte responses in, **140***
Syphilis, early infectious, in Denmark, **283**
Syphilis, early, role of immune complexes in Jarisch-Herxheimer reaction, **140***
Syphilis, early, with liver involvement, **69**
Syphilis, experimental, immune complexes in, **280***
Syphilis, humoral immune response to polypeptides of *T pallidum*, **140***
Syphilis, is penicillin always infallible in?, **140***
Syphilitic leukoderma, ultrastructural observations on melanocyte function, **280***
Syphilis, lymphocyte transformation and the effect of circulating immune complexes, **140***
Syphilis, nodular secondary, **69***
Syphilis, penicillin concentrations in CSF and serum after intramuscular, intravenous and oral administration, **345***
Syphilis, primary, *T pallidum* in peripheral nerve tissue, **212***
Syphilis, secondary, leucoderma in, **140***
Syphilis, secondary, reversible, penile leucoderma in, **140***
Syphilis serology, AMHA-TP test for screening, **212***

Syphilis serology, ELISA using sodium desoxycholate-extracted treponemal antigens, **140***
Syphilis serology, enzyme-linked immunosorbent assay for IgG antibodies against Reiter treponeme flagellum, **69***
Syphilis serology, fluorescent treponemal antibody absorption double staining test evaluation, **280***
Syphilis serology, modern, **279***
Syphilis serology, purification of Tr-6, a Reiter treponeme protein antigen, **212***
Syphilis serology, tests, **212***
Syphilis serology: *T pallidum* haemgglutination assay, miniaturisation, in blood transfusion centre screening, **279***
Syphilis, transfusion, survival of *T pallidum* in donor blood, **279***
Syphilis, treatment of, **212***

Tetracycline and erythromycin compared in *C trachomatis* positive male and female partners, **142***
Tetracycline in chlamydia positive and chlamydia negative non-gonococcal urethritis, **214***
Thiamphenicol compared in gonorrhoea in women, **72***
Treponema pallidum and cytomegalovirus specific IgM antibodies, rapid detection with passive haemagglutination, **279***
T pallidum and human polymorphs, interaction between, **345**
T pallidum antigen, evaluation of microenzyme-linked immunosorbent assay with, **69***
T pallidum antigens, expression in *E coli*, **69***
T pallidum Bosnia A strain antigens, ability of macrophages to process and present, in experimental syphilis, **70***
T pallidum, effect of route of infection with, in vitro cellular response to treponemal antigens, **212***
T pallidum, immune complexes in experimental rabbit infection, **70***
T pallidum, immune system responses towards, **280***
T pallidum, independent confirmation of in-vitro cultivation, **70***
T pallidum in peripheral nerve tissue of syphilitic chancre, **212***
T pallidum, molecular protein characterisation, **280***
T pallidum (Nichols), murine monoclonal antibodies specific for, **70***
T pallidum outer membrane, solubilisation by detergents to release axial filaments, **69***
T pallidum polypeptides, humoral immune response in human syphilis to, **140***
T pallidum surface-associated antigens concealed by an outer inert layer, **70***
T pallidum, survival in donor blood, **279***
T pallidum, ultrastructure during phagocytosis and dissolution by macrophages, **69***
T pertenue in golden hamsters, isolation and transportation in, **69**

Treponemes, acquired resistance of hamsters to challenge with homologous and heterologous virulent, **140***
Trichomonas vaginalis, alternative pathway of activation to complement, **142***
T vaginalis antibody in human cervicovaginal secretions, **214***
T vaginalis, antigen specific proliferation responses to peripheral blood lymphocytes, **281***
T vaginalis, canine prostatic secretions kill, **73**
T vaginalis, factors affecting activity of metronidazole against, **281***
T vaginalis, host plasma proteins on surface of, **142***
T vaginalis, identification of membrane proteins of, **347***
T vaginalis phagocytosis of *N gonorrhoeae*, **345***
T vaginalis, polymorph chemotaxis to secretions of pathogenic and non-pathogenic, **142***
T vaginalis proteinases, analysis of, **347***
T vaginalis, purine and pyrimidine metabolising activities in extracts of, **281***
T vaginalis, rapid diagnostic method, **73***
T vaginalis, role of cytoskeleton in natural cell-mediated cytotoxicity against, **281***
T vaginalis, sensitivity to metronidazole in medium with various concentrations of iron and ascorbate, **281***
T vaginalis, serum-free modified Trichosel medium for, **142***
Trichosel medium, serum-free modified for *T vaginalis*, **142***

United States army, venereal disease in, 1775-1900, **144***
Ureaplasma urealyticum genital infection, subsequent pregnancies among couples treated for, **346**
U urealyticum in infertile women by laparoscopy, **346***

Contents

February 1983 Vol 59 No 1

Microcapsule agglutination test for *Treponema pallidum* antibodies: a new serodiagnostic test for syphilis
SHINZO KOBAYASHI, SHUN-ICHI YAMAYA, TAKAO SUGAHARA, AND TYOKU MATUHASI *page* 1

Role of the Venereal Disease Research Laboratory test in the detection of syphilis
PAUL DIGGORY *page* 8

Interaction of *Treponema pallidum* with isolated rabbit capillary tissues
E E QUIST, L A REPESH, R ZELEZNIKAR, AND T J FITZGERALD *page* 11

Factors affecting the attachment of *Treponema pallidum* to mammalian cells in vitro
G H W WONG, B STEINER, S FAINE, AND S GRAVES *page* 21

Fluctuations in natural killer cell activity in early syphilis
JØRGEN R JENSEN, KRISTIAN THESTRUP-PEDERSEN, AND ELLIS FROM *page* 30

Essential mixed cryoglobulinaemia with false-positive serological tests for syphilis
R RUSSELL JONES, C PUSEY, J SCHIFFERLI, AND N A JOHNSTON *page* 33

Epidemiology and treatment of gonorrhoea caused by penicillinase-producing strains of *Neisseria gonorrhoeae* in Fukuoka, Japan
SHINJI URABE, SHIN-ICHI YOSHIDA, AND YASUO MIZUGUCHI *page* 37

Plasmid profile, serogrouping, and auxotyping of *Neisseria gonorrhoeae* isolates from Africa
T O ODUGBEMI, S T BROWN, J BIDDLE, S JOHNSON, G PERKINS, W DE WITT, AND W L ALBRITTON *page* 41

Blood group, secretor status, and susceptibility to infection by *Neisseria gonorrhoeae*
D F KINANE, C C BLACKWELL, F P WINSTANLEY, AND D M WEIR *page* 44

Gonococcal serology: a comparison of three different tests
A P ORANJE, K REIMANN, R V W VAN EIJK, H J A SCHOUTEN, A DE ROO, G J TIDEMAN, E STOLZ, AND M F MICHEL *page* 47

Chlamydial genital infection in prostitutes in Iran
S DAROUGAR, B ARAMESH, J A GIBSON, J D TREHARNE, AND B R JONES *page* 53

Clotrimazole and econazole in the treatment of vaginal candidosis: a single blind comparison
G GABRIEL AND R N T THIN *page* 56

Diagnosis of gonorrhoea in women: a national survey
ELIZABETH M BELSEY *page* 59

Problem-orientated categorisation of "other conditions" seen in a genitourinary medicine clinic
R S PATTMAN AND C B S SCHOFIELD *page* 63

Sexually transmitted diseases in the Republic of Ireland
R D CATTERALL *page* 66

MSSVD: secretary's report to the 61st annual general meeting, 1982
M A WAUGH *page* 68

Notices *page* 68

Abstracts *page* 69

April 1983 Vol 59 No 2

Enzyme-linked immunosorbent assay for the detection of serum antibody to outer membrane proteins of *Treponema pallidum*
J MORRISON-PLUMMER, J F ALDERETE, AND J B BASEMAN *page* 75

Estimation of the local production of antibodies to *Treponema pallidum* in the central nervous system of patients with neurosyphilis
F MÜLLER AND M MOSKOPHIDIS *page* 80

Antibodies to gonococcal pili in women with asymptomatic gonorrhoea: diagnostic value of the ELISA for testing women attending an STD clinic
ARNOLD P ORANJE, CARMEN O A ISERIEF, ANNET DE ROO, ERNST STOLZ, AND MARC F MICHEL *page* 85

Enzyme-linked immunosorbent assay for detecting gonococcal antibodies using two antigenically different gonococcal pili as antigen
ARNOLD P ORANJE, KARIN REIMANN, ANNET DE ROO, HUBERT J A SCHOUTEN, ERNST STOLZ, AND MARC F MICHEL *page* 89

Chemotactic activity of *Neisseria gonorrhoeae*
ERIC SANDSTRÖM, NIKOS VENIZELOS, AND JAN PALMBLAD *page* 92

Antigonococcal effects of vaginal tampons
ROBERT J ARKO, KWEI-HAY WONG, S JAY SMITH, AND KATHRYN G FINLEY-PRICE page 94

Penicillinase-producing *Neisseria gonorrhoeae* among prostitutes in Surabaya
HENDRO SASTROWIDJOJO AND ATASIATI IDAJADI *page* 98

Single 1 g dose of cefotaxime in the treatment of infections due to penicillinase-producing strains of *Neisseria gonorrhoeae*
G A J DE KONING, D TIO, J A R VAN DEN HOEK, AND B VAN KLINGEREN *page* 100

Prevalence of chlamydial infection in promiscuous women
P E MUNDAY, G PRITCHARD, J R W HARRIS, AND D TAYLOR-ROBINSON *page* 103

Secondary amenorrhoea associated with *Chlamydia trachomatis* infection
ATTILA TOTH, LAURENCE B SENTERFIT, AND WILLIAM J LEDGER *page* 105

Postgonococcal conjunctivitis caused by *Chlamydia trachomatis:* case report
BIRGER R MÖLLER *page* 109

Gardnerella vaginalis and anaerobic bacteria in genital disease
SOAD TABAQCHALI, M WILKS, AND R N THIN *page* 111

Topical acyclovir in the treatment of initial herpes
R N THIN, JOAN M NABARRO, J DAVIDSON PARKER, AND A PAUL FIDDIAN *page* 116

Abnormalities of the uterine cervix in women with vulval warts: a preliminary communication
P G WALKER, N V COLLEY, C GRUBB, A TEJERINA, AND J D ORIEL *page* 120

Treatment of anogenital warts: comparison of trichloracetic acid and podophyllin versus podophyllin alone
G GABRIEL AND R N T THIN *page* 124

Immunocompromise syndrome in homosexual men: prevalence of possible risk factors and screening for the prodrome using an accurate white cell count
DAVID GOLDMEIER, DAVID LINCH, AND B J MELLARS *page* 127

Subpreputial carriage of aerobic micro-organisms and balanitis
R K BHARGAVA AND R N T THIN *page* 131

Sexually transmitted diseases: extract from the Annual report of the Chief Medical Officer of the Department of Health and Social Security for the year 1980 *page* 134

Correspondence *page* 138

Book reviews *page* 139

Abstracts *page* 140

June 1983 Vol 59 No 3

Serological diagnosis of untreated early syphilis: importance of the differences in THA, TPHA, and VDRL test titres
P J L SEQUEIRA *page* 145

Microenzyme-linked immunosorbent assay for the detection of specific IgM antibodies in human syphilis
E-G LINDENSCHMIDT, R LAUFS, AND F MÜLLER *page* 151

Experimental syphilis: guinea pig model
CAROL S PIERCE, KONRAD WICHER, AND SHAHEEN NAKEEB *page* 157

Primary syphilis of the fingers
Z STARZYCKI *page* 169

Cefuroxime, thiamphenicol, spectinomycin, and penicillin G in uncomplicated infections due to penicillinase-producing strains of *Neisseria gonorrhoeae*
THELMA E TUPASI, LITA B CRISOLOGO, CLEOTILDE A TORRES, OFELIA V CALUBIRAN, AND IGNACIA DE JESUS *page* 172

Comparison of ceftriaxone with cefoxitin in the treatment of penicillin-resistant gonococcal urethritis
T R ZAJDOWICZ, P L SANCHES, S W BERG, S B J KERBS, R L NEWQUIST, AND W O HARRISON *page* 176

Urethral syndrome in women attending a clinic for sexually transmitted diseases
SANAT K PANJA *page* 179

Isolation and identification of anaerobic organisms from the male and female urogenital tracts
SHEILA MOSS *page* 182

Microbiology of vaginal discharge in Nairobi, Kenya
N B MIRZA, H NSANZE, L J D'COSTA, AND P PIOT *page* 186

Pelvic inflammatory disease associated with *Chlamydia trachomatis* infection after therapeutic abortion: a prospective study
ERIK QVIGSTAD, KJELL SKAUG, FRIDTJOF JERVE, PETTER FYLLING, AND JAN C ULSTRUP *page* 189

Entamoeba histolytica in male homosexuals
P G SARGEAUNT, J K OATES, I MACLENNAN, J D ORIEL, AND D GOLDMEIER *page* 193

Lymphogranuloma venereum of the rectum in a homosexual man: a case report
ADRIAN MINDEL *page* 196

Primary endometrial and endocervical granuloma inguinale (donovanosis): a case report
E M SCRIMGEOUR, S K SENGUPTA, AND I A McGOLDRICK *page* 198

Sexually transmitted diseases in northern Nigeria: five years' experience in a university teaching hospital clinic
C S S BELLO, O Y ELEGBA, AND J D DADA *page* 202

Sexually transmitted diseases: extract from the annual report of the CMO of the DHSS for 1981 *page* 206

Book review *page* 211

Notices *page* 211

Abstracts *page* 212

August 1983 Vol 59 No 4

How infectious is syphilis?
P C SCHOBER, G GABRIEL, P WHITE, W F FELTON, AND R N THIN *page* 217

Effect of syphilitic rabbit sera taken at different periods after infection on treponemal motility, attachment to mammalian cells in vitro, and infection in rabbits
G H W WONG, B STEINER, AND S GRAVES *page* 220

Treatment of neurosyphilis with chloramphenicol: a case report
BARBARA ROMANOWSKI, ELOUT STARREVELD, AND ANDREW J JAREMA *page* 225

Neisserial colonisation of the pharynx
H YOUNG AND S S R BAIN *page* 228

Penicillinase-producing *Neisseria gonorrhoeae* isolates from different localities in south east Asia: Susceptibility to 15 antibiotics
W S NG, P Y CHAU, JULIA LING, P ECHEVERRIA, R ROCKHILL, AND K ARNOLD *page* 232

Neisseria gonorrhoeae: stability of typing markers after natural transmission
C G COPLEY, C P CHISWELL, AND S I EGGLESTONE *page* 237

Acrosoxacin in the treatment of uncomplicated gonorrhoea
R J WALSH, R SCOTT, J B BITTINER, M SHAHIDULLAH, AND R C B SLACK *page* 242

Comparison of tetracycline and minocycline in the treatment of non-gonococcal urethritis
J D ORIEL AND G L RIDGWAY *page* 245

Infection of female squirrel monkeys (*Saimiri sciureus*) with *Trichomonas vaginalis* as a model of trichomoniasis in women
D A STREET, D TAYLOR-ROBINSON, AND C M HETHERINGTON *page* 249

Anaerobes in genitourinary infections in men
A N MASFARI, G R KINGHORN, AND B I DUERDEN *page* 255

Proctitis in homosexual men: a diagnostic problem
A McMILLAN, H M GILMOUR, K SLATFORD, AND G J C McNEILLAGE *page* 260

Treatment of chancroid with erythromycin: a clinical and microbiological appraisal
M O DUNCAN, Y R BILGERI, H G FEHLER, AND R C BALLARD *page* 265

Schistosomal genital granulomas: a report of 10 cases
V RATNAM ATTILI, SUBHASH K HIRA, AND M K DUBE *page* 269

Buschke-Loewenstein tumour of the penis: a case report
JANINA M HARVEY, E GLEN, AND G S WATSON *page* 273

Correspondence *page* 277

Abstracts *page* 279

Notice *page* 283

October 1983 Vol 59 No 5

Epidemiological characterisation of *Neisseria gonorrhoeae* isolates from the Far East
T O ODUGBEMI, W L WHITTINGTON, W DeWITT, G PERKINS, S JOHNSON, J BIDDLE, M PIZIAK, AND W L ALBRITTON *page* 285

Antimicrobial sensitivity of *Neisseria gonorrhoeae:* comparison of penicillinase producing and non-penicillinase producing strains
C HERZOG, C A ISON, AND C S F EASMON *page* 289

Sultamicillin in the treatment of gonorrhoea caused by penicillin sensitive and penicillinase producing strains of *Neisseria gonorrhoeae*
W A ATIA, A M EMMERSON, AND D HOLMES *page* 293

Cefaclor and cefamandole as alternatives to spectinomycin in the treatment of men with uncomplicated gonorrhoea
K PANIKABUTRA, C ARIYARIT, A CHITWARAKORN, AND C SAENSANOH *page* 298

Amine content of vaginal fluid from patients with trichomoniasis and gardnerella associated non-specific vaginitis
B E SANDERSON, E WHITE, AND M J BALSDON *page* 302

A method for recognising non-bacterial prostatitis: preliminary observations
P D SIMMONS AND R N THIN *page* 306

Efficacy of vaccine Ac NFU_1 (S^-) MRC 5 given after an initial clinical episode in the prevention of herpes genitalis
C B J WOODMAN, A BUCHAN, A FULLER, C HARTLEY, G R B SKINNER, D STOCKER, D SUGRUE, J C CLAY, G WILKINS, C WIBLIN, AND J MELLING *page* 311

Contact tracing in hepatitis B infection
P E MUNDAY, W McDONALD, K M MURRAY-SYKES, AND J R W HARRIS *page* 314

Actinomyces in the female genital tract: a preliminary report
G C GRICE AND S HAFIZ *page* 317

Treatment of chancroid: a comparison of sulphamethoxazole and trimethoprim-sulphamethoxazole
M V FAST, H NSANZE, F A PLUMMER, L J D'COSTA, I W MacLEAN, AND A R RONALD *page* 320

Intraoral condylomata acuminata: a case report
J O ASHIRU, B O OGUNBANJO, N A ROTOWA, F A B ADEYEMI-DORO, AND A O OSOBA *page* 325

Natural history of cervical epithelial abnormalities in patients with vulval warts: a colposcopic study
P G WALKER, A SINGER, J L DYSON, AND J D ORIEL *page* 327

A survey of sexually transmitted disease centres in Australia
DAVID L BRADFORD AND C ROSS PHILPOT *page* 330

STD—seventh national conference of the Indian Association
R D CATTERALL *page* 335

STD—third African regional conference
R D CATTERALL *page* 337

Correspondence *page* 340

Book reviews *page* 344

Notices *page* 344

Abstracts *page* 345

December 1983 Vol 59 No 6

Studies of rabbit testes infected with *Treponema pallidum* I Immunopathology
K WICHER, VICTORIA WICHER, S M NAKEEB, AND S DUBISKI *page* 349

Studies of rabbit testes infected with *Treponema pallidum* II Local synthesis of antibodies
VICTORIA WICHER AND K WICHER *page* 359

Imported penicillinase producing *Neisseria gonorrhoeae* becomes endemic in London
R N THIN, D BARLOW, S EYKYN, AND I PHILLIPS *page* 364

A study of inactivation of Chlamydia trachomatis by normal human serum
A P JOHNSON, M F OSBORN, S ROWNTREE, B J THOMAS, AND D TAYLOR-ROBINSON *page* 369

Isolation of *Chlamydia trachomatis* from prostatic fluid in association with inflammatory joint or eye disease
B T GOH, P MORGAN-CAPNER, AND K S LIM *page* 373

Social and psychological factors in the distribution of STD in male clinic attenders I Demographic and social factors
K W M FULFORD, R D CATTERALL, E HOINVILLE, K S LIM, AND G D WILSON *page* 376

Social and psychological factors in the distribution of STD in male clinic attenders II Personality disorders, psychiatric illness, and abnormal sexual attitudes
K W M FULFORD, R D CATTERALL, E HOINVILLE, K S LIM, AND G D WILSON *page* 381

Social and psychological factors in the distribution of STD in male clinic attenders III Sexual activity
K W M FULFORD, R D CATTERALL, E HOINVILLE, K S LIM, AND G D WILLSON *page* 386

A reappraisal of non-specific genital infection with reference to the work of the late Dr E Weston Hurst
R S MORTON *page* 394

Uveitis due to secondary syphilis
I ANNE TAIT *page* 397

Chancriform papule: a case report
S MURUGAN, P JEYASINGH, AND P V S PRASAD *page* 402

Paul Ehrlich: pioneer of chemotherapy and cure by arsenic (1854-1915)
A LENNOX THORBURN *page* 404

Correspondence *page* 406

Book Reviews *page* 409

Notices *page* 411

Index *page* 412
